

## Lamp Concealed Hinge HES3D-160

Use Templaco Template Stock Number ( Lamp-HES3D-160 )

**Note:** There will be a slight difference in the corner radius on these hinges compared to the mortis that the template produces. The hinge has a 6mm (.236") radius on the corners; when you produce your mortise with a 1/2" cutter, (.250" radius) there will be a slight amount of hand work needed in the very corner of the mortis pocket.
